ORGANICS & SUSTAINABLE RAYON

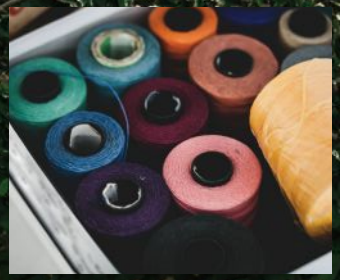

"We are living on the planet like we have another one to go to!"

Terri Swearingen

We are excited to launch Winter 2022. As our second year in **Organic Cotton** continues to develop. The positive reaction from our customers, reassures us that our efforts for naturality and sustainability are worthwhile. This year will see us introduce **Livaeco™ Sustainable Rayon** to compliment our Organic Cottons.

Livaeco™ Sustainable Rayon only uses timber sourced from responsibly managed forests that provide environmental, social and economic benefits.

A single garment made from **Livaeco™** Rayon saves 900 litres of water compared to garments from other natural fibres. An Orientique rayon garment will carry the **Livaeco™** friendly fashion tag.

ORIENTIQUE ART

An "Orientique" garment is different to most.

We produce fabrics to our specifications, fabric, weight and thread count.

We walk the streets and visit the fashion stores in every major country 6 months before our next season to ensure our collection is on trend.

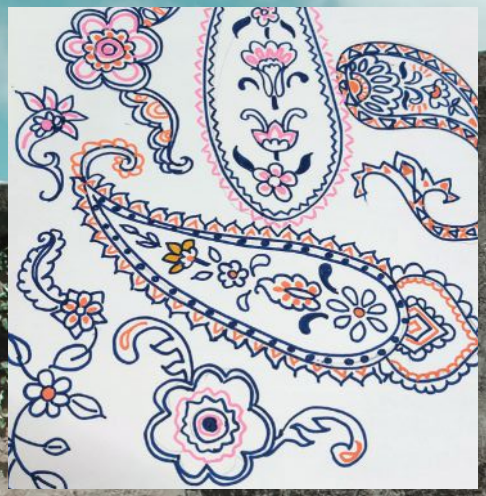

Our print designs are created by us or artists in Europe.

Every Orientique print is unique and exclusive to Orientique.

Most are hand paintings or drawings we develop into digital art.

All our prints are screened by hand by artisans that cut screens for each and every colour in each print.

A typical 10 colour print will be hand screened up to 30,000 times to produce the fabric for an Orientique story.

Kashmir

Created exclusively by Orientique's artists, inspired by the traditional Paisley motif from the Kashmir region of India. Showcased combos in oversized scale, following runway cues!
